- Safety
- Elegance
- Performance
- Ease of use
- Quiet
- Vertical take off and landing

VRCO – NEOXCRAFT

Stability

- Computer assisted flight, take off and landing.

Safety

- Ballistic parachute and low altitude crash prevention systems.

Endurance

- 60 minute flight time on one charge. Plus fast charging capabilities.

Performance

- Cruise speed to 160Knots.

SAY CARBON YACHTS

What we do.....

- Carbon
- Comfort
- E- Mobility
- Design
- German Engineering
- Performance

SAY CARBON YACHTS

Stability

- The side wings provide maximum stability and precise handling.

Safety

- The use of Carbon provides high strength and rigidity.

Endurance

- At 20 knots, the battery packs 120 kWh is sufficient for 30 nautical miles (55 km).

Performance

- With top speeds of 48 knots (89 km/h), current world record holder for fastest electric boat (series, 8-10 m).

WHAT HAPPENS NEXT?

- Each brand is managed by independent companies who are all well funded and well established.
- Prices, availability and further detailed specifications are available on request.
